

AGM 2024 Membership Report

Our annual membership fee remains a useful source of income to the Company, and at £10, unchanged since inception, represents remarkable value for money. It gives access to all our monthly workshops free of charge which now cost £5 to non-members.

At end of June 2024, the membership total stood at 40 paid up members [in 2023 it was 39]. The next membership number to be issued is 237 showing that a total of 236 individuals have at one time or other been members of STC since its inception.

The list of member's details is contained on the membership secretary's password protected laptop, with a backup copy created from time to time and held by our Treasurer.

In addition to our paid members, we have a mailing list of contacts who receive updates about our activities generally. Currently the size of this list is 974 [895 in 2023].
